☐ Add 2 days to production schedules for these papers

☐ Add scoring charge to price, based on the total number of sheets scored (Example 8 page booklet = 2 sheets)

Prices shown are dealer list

All prices shown in price list are dealer list prices based on receiving a ready to print electronic file. Orders which are supplied with camera-ready, negatives supplied or supplied with files which require additional manipulation will incur additional preparation charges. These charges will be figured based on \$70.00 per hour. All full color orders are subject to a 10% over/under run.

Prep Charges

- Typeset and Design Services - (Charges listed are meant as general guidelines)
 - For each 8½" x 11" page - minimum \$75.00 to \$175.00
 - For each 11" x 17" page - \$125.00 to \$300.00
 - Scans - \$35.00 (flat bed scanner only)
- Stock Pictures - Printco has an extensive library of stock pictures on hand or we can purchase a picture from many sources to meet your needs.
 - Stock Pictures on hand - \$15.00 per photo for use in orders printed by Printco (Most pictures are 300 dpi or low resolution for web site use)
 - Purchased photos - Market price
- Proofs -
 - *Black & White Proof - \$20.00 first side (\$.50 per additional side)
 - *Color Laser Proof - \$25.00 first side (\$3.00 per additional side)
 - *PDF digital proof (e-mailed) - \$20.00 first side (\$3.00 per additional side)
 - High Quality Color Proof (Matte or Gloss) Printed on Indigo - \$30.00 first side (\$5.00 per additional side)
 - *No charge on orders of \$500.00 or more

Additional Press Features

PMS Colors - Orders produced digitally can reproduce most PMS colors using the 4 process colors. If the PMS color requires an exact match, we can use our Indichrome system which will create an exact PMS duplication. Indichrome uses the 4 process colors plus orange and violet to create this match. Indichrome can also be used to make your process colors look more vibrant. The charge for this service is listed below. We do not offer PMS colors on offset printed projects.

Matte Ink - Our digital press can use matte ink to give the look of varnish. While this ink does not have the protective qualities of varnish, it does create the same look as varnish on a process printed piece. The charge for incorporating this matte ink in your job is listed below.

Variable Printing - Many customers are requiring more personalized printed pieces for their print projects. Our digital press can create variable text and graphics in your next print run. Our prepress staff can help you offer this feature to your customers. Basic charges for this service are listed below. Depending on the complexity of the project, additional charges will apply. Contact the factory with details of your project for a price quote.

- Prices for Indichrome & Matte Ink are based on printing one side of a 12" x 18" sheet.
- Matte Ink - \$25.00 set up charge plus \$7.50/hundred sheets.
- Indichrome - \$25.00 set up charge plus \$22.50/hundred sheets.
- Variable Printing-
 - \$25.00 set up charge for Simple text with simple conditional rule
 - \$50.00 set up charge for Simple Image or Average Text with conditional rule
 - \$75.00/hour for complicated variable print project - contact factory for price quote

Shipping Schedule (Shipping schedule based on ready to print electronic file-add a minimum of 3 days for design-n-print services)

- Digitally Printed Products - 72 Hours (Rush Service Available on small quantities - 48 hours - \$75.00)
- Variable Printed or Print-N-Mail Projects - 5 days (digital only)
- Offset Printed Products - 7 Days (No Rush Service Available)

Mailing Services

We offer a full range of mailing services and mail list rental/purchases. Ink jet and laser addressing allows us to meet all of your mailing requirements.

Variable Printing and 1:1 Marketing

Our digital color printing equipment allows us to provide variable color printing, which will maximize your return on investment for marketing dollars. Personalized and targeted marketing campaigns will increase response rates which in turn will increase sales. Contact our marketing department for programs and ideas for your next color project.

On Line Print Production and Fulfillment is very cost effective

Digital color printing equipment in combination with our on-line ordering system will allow you to minimize inventory and outdated marketing materials and allow for versioning and personalization. Contact our marketing department for ways to take advantage of our state of the art system.

ELECTRONIC FILE GUIDELINES

The following guidelines will help make your electronic file submission trouble free and allow Printco to make sure your order is processed smoothly through the completed order process. If you have questions in regards to your specific needs call Printco's prepress department or E-mail them directly at prepress@printco.com.

Floppy Disk (Mac or PC)
 CD Rom (Mac or PC)
 E-mail (Mac or PC)
 Zip Disk (Mac only)
 Optical Disk (Mac only)
 Modem Transfer (920-685-0460)

Check List for Files

- ✓ **Are all full color files set to CMYK, not RGB?** If the files need to be converted to CMYK, there will be an additional composition charge added.
- ✓ Have you provided a composite file layout and printed color proof for comparison? We will not guarantee a color match without a color sample.
- ✓ Did you include all fonts used? (Another option is to embed the fonts into the file)
- ✓ Has trapping been applied if needed?
- ✓ Have you included all screen and printer fonts used in your file?
- ✓ Did you use the actual typestyle of the font, not the style palette?
- ✓ Did you set up the file on the correct size document for exact positioning?
- ✓ Have you set up margins for bleeds and text to proper dimensions?
- ✓ Are all full color and/or grayscale photos at 300 dpi and at the correct size to print?
- ✓ Are all placed graphics in eps, tif or jpg format? (All embedded and linked files)
- ✓ Did you include all supporting files?
- ✓ Do all bleeds extend beyond the edge of the page by 1/8"?
- ✓ Do we have authorization to reproduce photos supplied?
- ✓ Have you labeled your disks or included a list of files provided?

Production times shown in price list are based on all files being set up according to required specifications. Production schedules will be extended if specifications are not followed. When problems exist, you will be given the opportunity to resubmit files or have our design staff make alterations for our current hourly fee.

Design Tips

- ◆ Use graphics to add impact to a page, but don't use them indiscriminately.
- ◆ To add emphasis, crop your graphics so that the image bleeds off the page.
- ◆ When combining type styles, limit yourself to 2 different type families.
- ◆ Contrast is important to all design decisions.
- ◆ Use color to tie a layout together. Use dominant colors for borders, boxes, rules, etc.
- ◆ When in doubt, keep it simple! Clean simple layout is much more effective.
- ◆ Edit - Edit - Edit Simple, direct and to the point will capture your readers interest.
- ◆ Readability always takes precedence over design.

FREQUENTLY ASKED QUESTIONS

Q. What equipment will you use to produce our full color printed piece?

A. We currently have a variety of production equipment we use to produce our color printing, including offset and digital color presses. Unless you specify the equipment you require, we will choose the specific production method based on the quantity and production schedule required. Generally digital color presses will be used on smaller quantities where fast turnaround times are required and offset equipment will be used on larger quantities where turn around time is not a priority.

Q. Since all pricing is based on a digital file being supplied, is there any way to produce color printing if negatives are supplied?

A. We can produce your full color printing if you supply negatives but we can only produce the product on our offset equipment which will affect minimum quantities, turn around time and price.

Q. If I request a color proof, will that be representative of the finished product?

A. Generally speaking, color proofs are intended to show color and positioning of all elements. Variation in color may occur in your final printed job. If final color is extremely important request a High Quality Color Proof.

Q. What design services do you provide?

A. Printco will provide design services to meet your needs. If you would like a turnkey solution, or just fine tuning of existing art. We have a library of stock pictures, scanning devices, and knowledgeable prepress staff - We are able to meet your needs.

Q. Are you able to provide variable printing for the 1:1 Marketing needs of my customer?

A. We have software and printing equipment to handle variable printing projects and design staff to help your project progress smoothly.

Q. Are you able to provide mailing services for our print and mail projects?

A. If you are tired of having to use multiple vendors to provide services for your print and mail projects, give Printco a try for a turnkey solution. If Printco provides all the services, we are able to control all aspects of your project. Making sure your customers mailpiece hits the post office on time is our #1 objective. And we have all of the equipment necessary to meet the requirements of most mailpiece projects.
