

pURLS & QR Codes

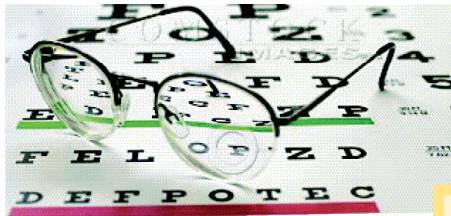

About pURLS

A pURL is a personalized url or website, that uses variable text, images and links on a series of landing pages. Incorporating a purl into your direct marketing campaign will boost response rates, provide a measureable ROI, access to reporting results 24/7, capture customer information and preferences & generate qualified leads. The landing pages can be designed to mimic an existing website or incorporate the same look as your direct marketing piece. Take the guesswork out of direct marketing and take a targeted approach.

It's time for your next eye exam!

Dear Jane:

It's time to schedule your next eye exam. At your last exam we discussed the need for routine eye care because during this stage of our lives it is normal for people to have more problems with their close vision. This comes when we spend more time than ever on computers at work, text messaging and emailing each day. Likewise, it is important to check for eye diseases that can become more common as we age.

Check out http://www.familyeyecare.com/Jane_Smith for tips on how to keep your eyes healthy, in addition, give us a call at (123) 456-7890 to schedule your next eye exam. We'll be looking forward to seeing you again soon.

Thanks again.

Sincerely,

Family Eye Care Center

- Set Up Fee - \$100.00 + \$.07/e-mail.
* Art Supplied

QR CODE - Pricing

- QR Campaign (Includes 1 unique QR code)
\$100.00 Set Up Fee - includes tracking details

About QR Codes

A QR code is a two dimensional code which stores information that can be scanned and read with a cell phone. "QR" meaning "Quick Response" allows a person to decode the contents at a high rate of speed. Simply download the QR reader on a camera phone and take a picture of the code. The reader will let you view the message, open the url, store/dial a phone number or import contact information into your phone.

Printco can generate a QR code and print it on any form you request. Just supply us the information to embed in the code and we'll take care of the rest. If you have questions, please contact us at 920.685.5662.
